OUR HISTORY

The Zerostress concept was born in 2012 with the creation of a DIY pizza food truck. Since then, we baked pizzas at the most important music and arts festivals all over Europe.

In 2015, we opened our first permanent restaurant in Friedrichshain, bringing our street, multicultural vibe to a fixed location, and in 2019 we launched this second restaurant in Berlin together with 'The Winery'.

Zerostress keeps on growing and perfecting what we do best: making unique, delicious pizza with a bold attitude.

We also provide different solutions for events and festivals catering.
